PROFILE

A full-stack developer with a passion for building impactful solutions, I thrive at the intersection of AI and application development. My experience includes developing innovative platforms like Raktacure, an early blood cancer detection system using AI, CareerDive, a mentor-mentee connection platform, and AxesFlow, a CRM-based platform.

WORK EXPERIENCE

CETPA Infotech Pvt. Ltd.   June 2024 – July 2024
AI/ML Intern

- Executed comprehensive data analysis using Seaborn and Kaggle, identifying four key performance indicators that now guide strategic decisions for a 10+ member team.
- Developed and implemented various machine learning models, including Sentiment Analysis, Email Spam Classification, and a predictive Stock Price Model.

Encryptix   JULY 2024 – AUGUST 2024
Android Development Intern

- Developed and launched multiple mobile applications, including a Quote App, Task Manager, and Alarm Clock App, for the Android platform.
- Engineered solutions using a diverse tech stack including React Native, Capacitor, and Android Studio, ensuring robust and scalable app performance.

RaktaCure AI   Nov 2024 - Present
Full Stack Developer

- Conceptualized and developed the core architecture for Raktacure, an innovative platform utilizing AI for the early detection of blood cancer.
- Built the full-stack application, ensuring a robust and scalable solution for processing and presenting the diagnostic insights.
